**TO WHOM IT MAY CONCERN**

**MALLVIN RAJAMOHAN**

Mallvin is one of the most exceptional students I have encountered in my few years of teaching in the Immersive Simulation Specialisation under the Information Technology Diploma. I taught Mallvin in his first year in Introduction to Immersive Simulation, second year in Simulation Scenes and Objects and Immersive Simulation Development Techniques. I also supervised his group for their Final Year Project (FYP) which they did exceptionally well for a computer-based training game for the Republic of Singapore Airforce (RSAF). They were not taught officially on Multiplayer Networking but they did their own self-learning and managed to accomplish it excellently.

Mallvin is the team leader for his Final Year Project. He leads his team and make sure the team is always on schedule and are keeping up with the tasks as well as lending a helping hand to his teammates when they need assistance. His leadership ability led the group to do an excellent job that made the clients very pleased. Mallvin and his team are always open to feedback and criticism and use them to optimise and better develop the project for the client's goals.

Mallvin participated and interacted in class actively too. His batch worked very well together and motivated each other to excel in their studies and is a joy to mentor them. They are unselfish and shared willingly how they programmed their game mechanics. He is an outstanding student, is bright, and with great teamwork, he can accomplish tasks in a courteous and timely manner. Mallvin is also friendly and respectful in and out of class.

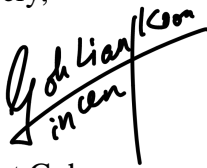

Mallvin is active and outgoing nature in class and with a great sense of humour helps him to gel with others. He works on personal projects during his free time to apply what he has learnt and to create solutions that solve real world problems. Furthermore, Mallvin attends conferences and seminars outside of school such as the Tech in Asia Conference 2021, the Singapore Computer Society Cloud Conference 2022 and more just to name a few. His openness to feedback means he is always learning and growing as a learner, an impressive strength that will continue to serve him well in the future.

P.g 2

Mallvin is just the kind of driven, engaging, and curious student that helped make our classroom a lively environment and safe place to take intellectual risks.

Please don't hesitate to contact me at [Vincent\\_GOH@sp.edu.sg](mailto:Vincent_GOH@sp.edu.sg) if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'Goh Lian/Con' with 'in can' written below it, crossed by a diagonal line.
